Backend / BaaS	Firebase (Firestore, Authentication, Hosting), REST APIs, SQL
Tools & DevOps	GitHub, Vercel, vs code, postman, netlify, render
AI & Data	AI application development
Languages	JavaScript, Python

PROJECTS

South Tetu Girls' High School Website

React.js, Firebase

south-t-ohjj.vercel.app

- Designed and built a full institutional website for South Tetu Girls' High School.
- Integrated Firebase for dynamic content management and real-time data updates.
- Deployed on Vercel with responsive design optimised for all device sizes.

Giakanja Boys' High School Website

React.js

giakanja-boys-website.vercel.app

- Developed a professional school website showcasing programmes, news, and school information.
- Built with React component architecture for maintainability and easy content updates.
- Deployed on Vercel with fast load times and a mobile-first layout.

Gadget Source POS System

React.js

pos-gadget-source-wk9h.vercel.app

- Developed a Point-of-Sale (POS) web application for a retail gadgets shop.
- Features include product management, sales tracking, and transaction records.
- Implemented a clean, intuitive UI suitable for day-to-day shop operations.
